

Stalwart Recognized for Excellence in Managed IT Services

STALWART Placed in the Pioneer 250 List of CRN's 2016 Managed Service Provider 500 List

CHARLOTTE, North Carolina, February 22, 2016 – Stalwart Systems, LLC. announced today that CRN®, a brand of The Channel Company, has named Stalwart to its 2016 Managed Service Provider (MSP) 500 list in the Pioneer 250 category. This annual list recognizes North American solution providers with cutting-edge approaches to delivering managed services. Their top-notch offerings help companies navigate the complex and ever-changing landscape of IT, improve operational efficiencies, and maximize their return on IT investments.

In today's fast-paced business environments, MSPs play an important role in helping companies leverage new technologies without straining their budgets or losing focus on their core business. CRN's MSP 500 list shines a light on the most forward-thinking and innovative of these key organizations.

"Stalwart's innovations around managed services are embedded in the Golden Rule – doing unto others as we would have them do unto us," says Stalwart's CEO, Bill Cooper. "Hence such things as 100% unconditional guarantees and complete transparency through a single, shared console."

"MSPs meet a critical need in the IT market, providing customized, turnkey services that allow for predictable operational expenses, effective control of expenditures, precise allocation of limited resources and convenient access to on-demand and pay-as-you-go technology," said Robert Faletra, CEO, The Channel Company. "We congratulate the service providers of the MSP 500, who continually reinvent themselves to successfully meet their customers' changing needs, helping businesses get the most out of their IT investments and sharpen their competitive edge."

More about Stalwart

Stalwart is a leading regional security integrator, specializing in advanced persistent threat assessment and hardened infrastructure design, implementation and management services. The company's innovative blend of security and infrastructure expertise sets it apart from pure-play security practitioners and siloed infrastructure solution providers alike. More about the MSP 500 list

The list is divided into three categories: the MSP Pioneer 250, recognizing companies with business models weighted toward managed services and largely focused on the SMB market; the MSP Elite 150, recognizing large, data center-focused MSPs with a strong mix of on-premise and off-premise services; and the MSP Hosting Service Provider 100, recognizing MSPs focused primarily on off-premise, cloud-based services.
